### **Park Regis Singapore Introduces Self-Service Laundry Service To Guests**

SINGAPORE, 16<sup>th</sup> June 2016 – Park Regis Singapore, the flagship hotel in Asia under StayWell Hospitality Group, adds self-service laundry facility within its premises to meet an increasing demand for quick and hassle-free laundry service catering to modern day cost-savvy travellers.

Park Regis Singapore is pleased to introduce a token-operated laundromat within its hotel premises, providing an alternative for guests who wish to do their own laundry at a fraction of the regular cost charged by a typical hotel, and at any time of the day. Super Relax – Wash & Dry, which operates 24 hours, features two units of washer and dryer each, including a foldable bench for guests to relax while waiting for their laundry. This newly added hotel facility essentially benefits both short and long haul travellers, especially guests who prefer on-day collection of laundered items without paying a premium or those who choose to clean bulk of their clothing before heading home to their countries.

“At Park Regis Singapore, we believe in staying abreast of travel trends in the highly competitive market and are thrilled to implement this self-service laundry service which serves to enhance guest satisfaction and boost overall hotel stay experience. With traveller needs in mind, this initiative provides convenience and cost savings for guests at both leisure and corporate levels.” says Jack Chua, General Manager of Park Regis Singapore.

Super Relax – Wash & Dry is located at Basement level and guests may purchase the token for use on the machines at a nominal fee, which includes cleaning detergents, from the hotel’s concierge or reception counters.
